

Statement from Harry Wapachee as provided to and translated by Johnny Trapper

I participated in at least three information sessions involving the Wabouchii Project. To a certain extent I am aware of where the project is located. However, I am not fully aware of all the details surrounding this project.

There is nothing much I can really say as I regard myself of not being the one to make a statement on behalf of our trapline. I am not the boss of the trapline. I am not one who opposes it but however, when it comes to employment, will I be given work?

I feel I will not be hired because I am not educated. I grew up on our trapline and my education comes from there. This is where my concern lies with me when I look at myself. Is employment guaranteed for me?

On the other hand, if a mine is erected on our trapline, it wouldn't really bother me as long there is no environmental damage to the land and that I continue to live on a good land with no damage to it.

Harry Wapachee
